

WARRNAMBOOL EAST PRIMARY SCHOOL

Flying Start

The Flying Start Package

Parent Education Session

A Flying Start parent education session will be offered during the program. During this session you'll be introduced to ideas to help prepare your child for school.

Children

1 x 2 hour session x 4 weeks: 10am - 12pm **OR** 1pm— 3pm

Maximum of 15 students per session.

Dates

Tuesday Group

11th, 18th, 25th October, 1st November

Thursday Group

13th, 20th, 27th October, 3rd November

Readiness is about the child reaching school able to take advantage of the academic and social learning experiences that schools provide.

Deciding upon the readiness of children can be overwhelming for parents and so, along with advice given by the pre-school setting, the school can assist children and families with the step forward into school.

How well children transition to school is important as it can impact on their long term development. (Care for Community Child Health, 2008)

Contact the school office to register. Phone 5562 4100

Flying Start

Flying Start

is a program designed to assist children in the transition from the Kindergarten setting to Primary School.

Flying Start

is open to children who will be starting Prep at Warrnambool East Primary School in 2023.

At Flying Start we will:

- Connect with families of children transitioning to school.
- We will help children use what they already know to develop new skills and understandings so they arrive at school with a readiness to continue learning.
- Be responsive to the learning needs of each child.
- Encourage and respond to each child's natural curiosity through an inquiry based approach.
- Provide parent education on key aspects of a child's development.
